Master of Science (MSc.) in Oral Implantology

Welcome!

Thank you for your interest in the Master of Science in Oral Implantology (MOI) here at the Goethe University in Frankfurt/Germany. The MOI is designed for fully-employed dentists whose primary interest is in receiving advanced academic training in the field of oral implantology. After successful completion of the program, you will receive the academic title of "Master of Science (MSc.) in Oral Implantology". You will be able to independently plan and implement therapy concepts for the treatment of patients requiring dental implant prosthetics. In addition, you will also have the skills required to select, analyse and fully integrate into your own practice a full range of treatments and knowledge in this field of dental implantology. Please use this website to learn more about investing in your continued professional success with our international part-time MOI Master's Program.

Program information

Independence

Your advantage - the program is with regard to content and finance completely independent of any institutions outside of Goethe University. As one of the major institutions of higher education in Germany, the university is committed to providing a wide spectrum of disciplines in research and teaching, to generating outstanding achievements, and to breaking new ground through the targeted utilization of the advantages and synergies of interdisciplinary work in research and teaching. In competition with the best national and international universities, Frankfurt University aims to fulfill its training and educational mandates through performance and open-mindedness.
