FROM DIGITAL INNOVATION TO COSMETIC RESULTS

Digital, 3D and CAD/CAM technologies are bringing about long-term changes to dental practitioners' day-to-day activities – they improve treatment standards and patient comfort as well as contributing to better cosmetic results. Dentists also need to make the right choices and work with the correct methods if they want to use these innovative tools, however. To successfully negotiate this transition, a number of factors need to be considered. Major changes are involved, in which information and learning support play a key role.

- Which options should you choose?
- How can you finance them?
- What are the clinical results?
- How can these tools be incorporated into dental practices on a day-to-day basis?

“ Digital:
the only way
forward ”

**ENJOY A ONE-OF-A-KIND
LEARNING EXPERIENCE
IN STUNNING
SURROUNDINGS**

IMAGINA Dental is your opportunity to come to Monaco to enjoy a new kind of dentistry congress that places a special emphasis on learning and sharing feedback. Through a three-day programme that combines exclusive lectures and presentations, studies of clinical cases, practical workshops and demonstrations of new technologies, IMAGINA Dental offers you a wide range of tools and teaching methods to help you bring about a digital revolution in your dental practice.

**HANDS-ON
WORKSHOPS
& DEMOS**

**SHARED
FEEDBACK**

HIGH-QUALITY LECTURE PROGRAMME

MEET INTERNATIONAL EXPERTS AND BENEFIT FROM THEIR EXPERIENCES

Every year, IMAGINA Dental brings together international digital and cosmetic dentistry experts. Chosen from around the world by our Scientific Committee, their top-quality work and teaching expertise contribute to the convention programme's leading reputation and consistently high standards.

HONORARY PRESIDENT

H.S.H. Prince Albert II of Monaco

HONORARY GUESTS

Dr Joseph Choukroun

Prof Dr Mauro Fradeani

Prof Dr Edward McLaren

SCIENTIFIC COMMITTEE

- > Dr Ebru OZKAN
- > Prof François DURET
- > Dr Bernard MARQUET
- > Dr Luc MANHES
- > Dr Hakan BILHAN
- > Dr Scott D. GANZ

SPEAKERS

- > **Dr Luc MANHES** (France)
As artificial intelligence draws ever closer, how can we use technology to ensure that we have complete control over our treatments?
- > **Dr Francesco MINTRONE** (Italy)
A step-by step approach to complex cosmetic restorations through the use of digital technologies.
- > **Dr Joseph CHOUKROUN** (France)
A-PRF and i-PRF in implantology.
- > **Prof Dr Angelo PUTIGNANO** (Italy)
Diagnostic dental wax-ups and mock-ups, smile previews and smile imaging (practical advice, tips and tricks)
- > **Dr David GERDOLLE** (Switzerland)
The secret to isolation and simulation when using ceramic veneers (tips and tricks...)
- > **Dr Nazariy MYKHAYLYUK** (Ukraine)
The role of magnification in cosmetic dentistry

700 delegates
are expected at
the 2016 edition

CONFERENCE PROGRAMME

See the full programme at www.imaginadental.org

THURSDAY 7 APRIL

CAD/CAM & MICROSCOPIC DENTISTRY

Honorary Guest
Prof Dr Edward MCLAREN

Animator:
Prof François DURET

- Oral scanning
- Chairside Cad/Cam restorations
- Esthetic Cad/Cam materials
- Digital denture design
- Digital dental prosthesis
- Restorative dentistry
- Microscopic dentistry

FRIDAY 8 APRIL

IMPLANTOLOGY & 3D PLANNING

Honorary Guest
Dr Joseph CHOUKROUN

Animators: **Dr Scott D. GANZ**
& **Prof Giuseppe LUONGO**

- 3D imaging & diagnostics (ConeBeam CT)
- Dental implantology & innovations
- 3D planning & Surgical guide
- Cad/Cam technologies for implantology
- Individualized Cad/Cam abutments
- Digital workflow in the clinic
- PRF applications

SATURDAY 9 APRIL

SMILE DESIGN & MINIMAL- INVASIVE DENTISTRY

Honorary Guest
Prof Dr Mauro FRADEANI

- Digital Smile Design
- Esthetic art dentistry
- Materials for esthetic dentistry
- Minimal-invasive dentistry
- Digital dental photography
- Mock-up & wax-up techniques
- Immediate smile

HANDS-ON WORKSHOPS PROGRAMME

- Smile design via iPad. **Dr Mario IMBURGIA**
- Digital dental photography. **Dr Atila ERTAN**
- Techniques for injecting hyaluronic acid for day-to-day use in dental practices. **Dr Jean-Pierre SALAMA**
- A-PRF and i-PRF in implantology. **Dr Joseph CHOUKROUN**
- Anterior teeth restoration. **Dr Brian P. LESAGE**

IMAGINA DENTAL : THE ONLY CONVENTION THAT FOCUSES ON TEACHING INNOVATION IN DENTAL PRACTICES

Do your patients request that you offer every treatment option available?

To do so requires you to keep your skills up to date at all times, through continuous training and an awareness of the latest techniques that will enable you to ensure that your knowledge is as detailed as possible.

‘The role of a dental surgeon is constantly evolving, making continuous training a necessity, especially as a result of the digital revolution.’

‘To ensure that the treatment you offer your patients is always as effective and safe as possible, a wide array of skills is crucial.’

AN ACCESSIBLE CONVENTION WITH A FOCUS ON INTERACTION AND ONE-TO-ONE CONTACT

Dr Galip GUREL

‘I think it’s a huge success – I can tell from the audience. It was packed. This is an amazing event. It gave the audience the chance to see what we mean when we talk about new advances in dentistry. The combination is great. I’d really like to congratulate all of you for putting this together.’

Dr Arielle UZAN

‘Having attended the congress for the first time, I’ve been very pleasantly surprised both by the standard of speakers and the quality and content of the lectures over the last three days, as well as the stunning setting. Everything has been very well put together

by a superb and very responsive organisational team. This year also saw a focus on cosmetic dentistry, and a range of insights have given me a comprehensive overview of this area. I’m very much looking forward to coming back next year.’

Dr Patrice BERGEYRON

‘IMAGINA Dental is where technology meets dentistry, with a focus on precision and comfort that benefits current and future patients and practitioners alike (...).’

Prof François DURET

‘The quality of the talks is quite amazing. Something that stood out to me was how much things have changed between the first

year and now. IMAGINA Dental is really coming into its own. The people in the Exhibition Hall represent the dental industry of the future. Companies linked to digital technologies account for 70% of exhibitors at IDS; here it’s 100%. This is where all the big names come.’

Dr Luc MANHES

‘It is always a delight to come to Monaco and meet practitioners who share a passion for these technologies that are revolutionising our work; thank you, IMAGINA Dental, for this event, which combines technical demonstrations, remarkable scientific content and a perfect welcome in magical surroundings.’

WHO ARE WE?

IMAGINA Dental is an event jointly organised by MONACO MEDIAX, a not-for-profit organisation (under law no. 1072 of 27 June, 1984), and the Monegasque Association for 3D Dental Imagery. Under the honorary presidency of H.S.H. Prince Albert II of Monaco, MONACO MEDIAX is an organisation that has operated in the Principality since its creation in 2001. The many cultural and professional events organised by MONACO MEDIAX take place not only across Monaco but also in Asia and North and South America.

MONACO, WHERE FANTASY AND SOPHISTICATION MEET

Discover, learn and share in a dream setting.

The Principality of Monaco can be reached easily from anywhere in the world, with Nice Côte d'Azur International Airport serving over eighty destinations. The beguiling Monegasque landscape enjoys a Mediterranean climate and an exceptional amount of sunshine that makes it a delightful – and prestigious – setting all year round. A true centre of culture, Monaco is a permanent celebration that also welcomes some of the greatest events in the world.
